

Grub Quest

Carmine Trovato, Nicole Carvalho, Eddie Gemayel, Danny O'Carroll

Summary:

This web application is designed for people searching for places to eat near them. The application will return results based on the user's query of zipcode, type of cuisine, or by restaurantname. It will return results with restaurants and their menus and prices if applicable.

Time of Completion:

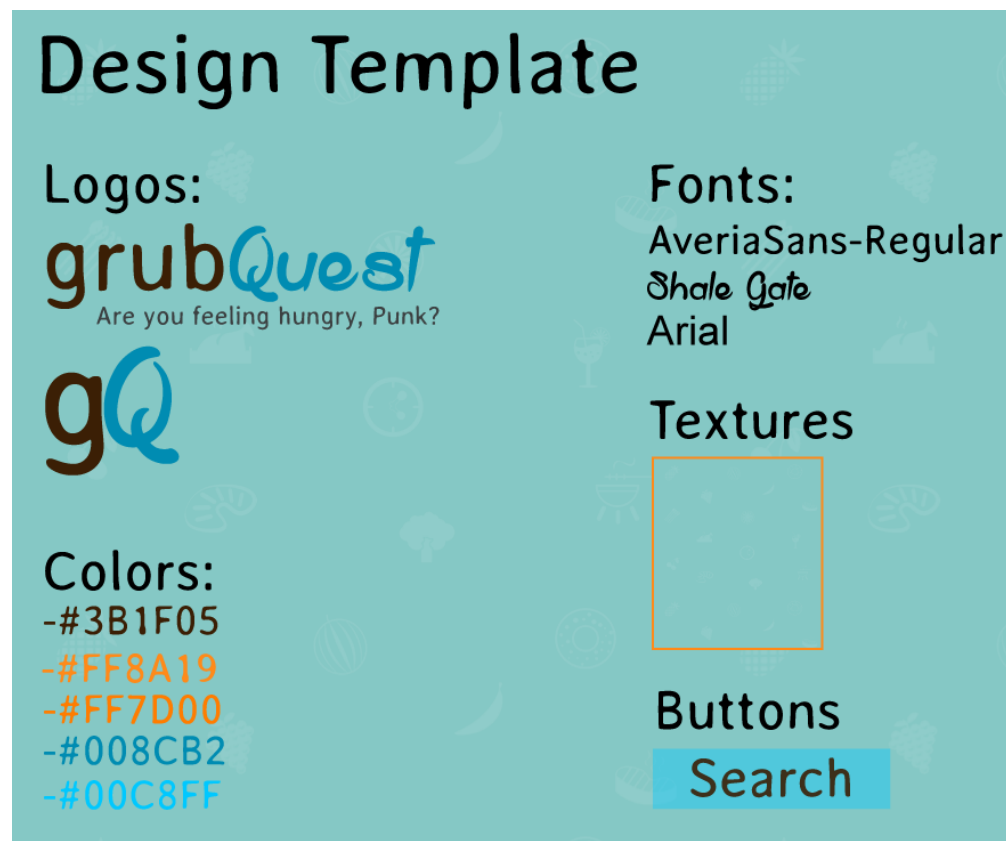

This PRD, wire frames, and design comps will be completed by 5pm on Tuesday, October 28, 2014.

The application itself will be fully completed by noon on Saturday, November 8, 2014.

Language/Framework Platform:

Nodejs will be language used for this project. We will also be utilizing the "Locu + Node" wrapper for Nodejs found at <https://github.com/Locu-Unofficial/locu-node>.

Design Template and Wireframes:
